

Brenda Daroz

Junior Web Developer

After 10 years in the scientific research career, I decided to transition to web development. For the last 6 months I've been studying web development and now I'm looking for an opportunity as a junior front-end engineer.

Berlin, Germany

Projects

- Front-end-Mentor Challenges ([Repository](#))
 - Created a variety of projects using Semantic HTML5 markup, CSS custom properties, CSS variables, Flexbox, Grid, Vanilla JS and Mobile-first workflow.
- Cookbook website ([Live website](#), [Repository](#))
 - Built as an SPA backed by a Node.js HTTP server using Express.
- [Portfolio](#)
 - Projects section built by dynamically generating HTML, styled using Sass preprocessor.
- Weather App ([Repository](#))
 - Created using React, using third-party API OpenWeatherMap to fetch data.
